unbelievable cloudes on a morning over Simsjön

marvelous cloudes on an evening over Skövde

I prefer a clouded sky to a clear sky!

But why? Take a look and enjoy these two pictures I took. Every sky is unique because of those beautiful clouds. A clear blue sky can be photographed on more days in a year and will look the same, but clouds are always unique!

I have the same feelings for people. I love to meet non-mainstream persons, who enhance my life!
